(54) Title: SUPPORT FABRIC HAVING POCKETS

(54) Titre : TISSU DE CONTENTION A POCHES

(57) Abstract: The invention relates to a support fabric provided with pockets for accommodating, in particular, stiffening means. The invention is characterized in that it comprises two woven layers (A B), which are joined by stitch bonding and, during production, are separated from one another in areas so that they are not joined whereby directly defining one or more profiled pockets (C) and being able to accommodate one or more of the means that are inserted after production. In addition, the pocket(s) is/are incorporated inside the body of the support fabric, and each pocket has an opening (10a) for inserting one of the means (11).

(57) Abrégé : Tissu de contention, du type agencé avec des logements de réception confectionnés et destinés à recevoir notamment des moyens de rigidification, remarquable en ce qu'il comprend deux nappes tissées (A - B) solidaires par liage et s'écartant l'une de l'autre ponctuellement de manière non liée lors de leur fabrication pour définir directement une ou des poches (C) profilées et agencées pour recevoir un ou des moyens introduits après la fabrication, et en ce que la ou lesdites poches sont donc incorporées dans le corps du tissu de contention, chaque poche présentant une ouverture (10a) d'introduction d'un des moyens (11).
